

### ◆ DESCRIPTION

LEADPLEX4 is an assembled structure of breather,perforated release film and peel ply. It absorbs excess resin and volatiles from vacuum bagging equipment and has excellent release properties.

### ◆ CHARACTERISTIC

- Excellent operability, good flatness
- Good air permeability
- Well uniformity, long time resistance
- Excellent release characteristics

### ◆ PROPERTIES

| Specifications             |                                 |
|----------------------------|---------------------------------|
| Colour                     | Blue+White with red tracer yarn |
| Thickness/in               | 0.04(1mm)                       |
| Width/in                   | 59(1.5m)                        |
| Maximum Use Temperature/°F | 300(150°C)                      |
| Weight/[g/m <sup>2</sup> ] | 260 g/m <sup>2</sup>            |

### ◆ RECOMMENDED PROCESS

LEADPLEX4 has good flatness and excellent operability, recommend being used below 300°F.

### ◆ STORAGE

LEADPLEX4 is packed in roll. Recommend being packed in polyethylene bag or any other materials which have the same function, used and stored in a clean and relative humidity environment about 30%-70%RH and 41°F -77°F.
